

## **Abe R. Bonnema**

Mr. Bonnema is one of the founding directors of ISIS – Innovative Solutions In Space BV, a small nanosatellite specialist space company from the Netherlands. Before starting the company in 2006, Abe finished a Master degree in Aerospace Engineering at Delft University of Technology, with a specialty in space systems engineering.

For his Master's thesis, Mr. Bonnema was systems engineer and project manager of the university's nanosatellite project Delfi-C3, which he continued to be after graduating in August 2005 as researcher at the university to finish the satellite. During his studies, Abe has always been involved in space related activities and has been member of the board of the society of aerospace students.

Nowadays, Mr. Bonnema acts as marketing director for ISIS and her daughter companies and is also main responsible for the small satellites launch services. Additionally, Abe is a member of the Supervisory Board of the Dutch micro technology research program MicroNed.
