

Eric Jeurissen

Eric Jeurissen, Operations Manager at the European Union Satellite Centre (EUSC).

Eric is an ex- Air force officer from the Netherlands who started his career in 1985, and now gaining over 20 years' experience in imagery and data analysis.

His Air Force career guided him through F-16 Reconnaissance Squadrons, NATO and National Headquarters and he participated in numerous exercises and was deployed for several operations.

After a tour as a project manager for Strategic Projects (mainly Imagery Analysis related) in a national Headquarters, he moved to Spain as Operations Manager in the Operations Division, the heart of the

EUSC, being responsible for managing all tasking arriving at the Centre.

Recently he changed position to the planning and projects side of the Operations Division. He is the deputy Head of Operations in his absence.

The EUSC supports the decision-making of the European Union in the field of the CFSP, in particular of the ESDP, including European Union crisis management operations, by providing, as appropriate, products resulting from the analysis of satellite imagery and collateral data, including aerial imagery, and related services.
