

Pierluigi Mancini

Head of the Awareness Activities and Feasibility Studies Division, Directorate of Telecommunications and Integrated Applications, European Space Agency

Biography

University and graduate studies:

- Degree in Electrical Engineering achieved with honours at the University of Naples, School of Engineering;
- Master of Science degree in Electronics at the Polytechnic Institute of New York;
- Ph.D. in Electrical Engineering, University College London.

I have more than 25 years of experience in the space sector where after several years of R&D activities in the spaceborne radar domain, I have been involved in the definition and implementation of several ESA missions such as ERS, ENVISAT, Little Geo as well as some key strategic developments in the field of space based applications.

In my today function I am responsible of the Awareness Activities and Feasibility Studies division in the directorate of telecommunication and integrated application which duty is to set the strategy in the application sector and preparedness.
