

## **Spyros Pagkratis**

Spyros Pagkratis joined the European Space Policy Institute in Vienna as a project manager in 2010. He was the study leader of ESPI Report 23 on “Space Policies, Issues and Trends in 2009/2010”, providing a comprehensive overview and analysis of developments in the field of international space policies on an annual basis. Prior to that, he briefly worked as a space policy analyst with the Western European Union Assembly and EADS Astrium Space Transportation in Paris. He holds a degree in history from Athens University and Master’s degrees in international relations’ history from Sorbonne, as well as in defence policy and armament procurement planning from Panthéon/Assas Universities in Paris.
