

Ulrike Daniels

Business Development Manager

Anwendungszentrum GmbH Oberpfaffenhofen

On behalf of the Application Center for Satellite Navigation AZO (subsidiary of the German Aerospace Center) Ulrike has been managing the European Satellite Navigation Competition (ESNC) since 2006. The ESNC is an international ideas competition globally searching for the most innovative GNSS applications with the aim of systematically supporting entrepreneurs and start-up companies and to foster the realisation of the awarded ideas. Ulrike is responsible for promoting, coordinating and enlarging this unique network of 23 partner regions, 200

experts, 350 yearly participants and sponsors such as NAVTEQ, T-Systems, the European Space Agency (ESA), the European GNSS Supervisory Authority (GSA) and the German Aerospace Center (DLR). Ulrike also has wide experience in the organisation of GNSS related conferences and trade shows and holds an MBA in international marketing.
