

Andreas Dippelhofer

On behalf of the Application Center for Satellite Navigation AZO (subsidiary of the German Aerospace Center), Andreas Dippelhofer has taken over the overall project management for the European Satellite Navigation Competition (ESNC) in 2011. The ESNC is an international ideas competition globally searching for the most innovative GNSS applications with the aim of systematically supporting entrepreneurs and start-up companies and to foster the realisation of the awarded ideas. Andreas Dippelhofe is responsible for promoting and coordinating this unique network of 23 partner regions, 200 experts, 400 yearly participants (as of 2011) and sponsors such as NAVTEQ, TÜV SÜD, the European Space Agency (ESA), the European GNSS Agency (GSA) and the German Aerospace Center (DLR). Andreas Dippelhofe also has experience in the organization of GNSS related conferences and trade shows and is a graduate geographer. Andreas Dippelhofe studied in Augsburg/Germany with focus on Federal State Law for Comprehensive Regional Planning, Empirical Social Research and Regional Statistics, as well as Urban Research and Integrative Habitation. Later as project manager Andreas Dippelhofe had focalised on Regional Marketing and Regional Management activities before he came to AZO in 2009.
