

## **Eva Daigina**

Eva Daigina is a Project Manager of the foundation “Ventspils High Technology Park”. Since 2009, she has been involved in the development of the Latvian Space Technologies Cluster as Project Specialist and later also as Cluster Coordinator. Eva Daigina does a significant work organizing Satellite Technologies summer schools in Ventspils. This year, the school has taken place for already the second time. This year’s school attracted international experts from the ESA, Aalborg University, Aalto University and also participants from Latvia, Estonia, Lithuania, Finland, and Denmark. As a Project Manager, Eva Daigina is responsible for the development of Kurzeme Demonstration Centre, the compositions of interactive demonstration stands will be related to space, business incubator companies and will also have virtual demonstration parts. Holding the competition “We own the sky” is also an important work Eva Daigina has been responsible for. The competition took place for the second time already. Eva Daigina has been a member of the evaluation committee of received works. The winners of the competition – the Latvian pupils – earn a possibility of attending the International Space Camp in the USA.
