

## Jan Schulte

Jan Schulte is working as Electrical Engineer for ÅAC Microtec, Sweden. Jan Schulte holds a M.Sc. degree from the Mid-Sweden University and a degree as Diplom Ingenieur from the German University of Applied Sciences Osnabrück. During the last 2 and half years he has been working as development engineer for the Space Plug-and- Play Avionics (SPA) components from ÅAC Microtec. The U.S. Air Force Research Laboratory (AFRL) certified him for teaching the CubeFlow courses which give an introduction into the SPA technology which he has carried out in a number of international seminars.
