

## Mr Vytautas Bakanauskas

*PhD Student*

*Mechatronics Centre for Research, Studies and Information*

*Kaunas University of Technology*

*Lithuania*

Vytautas Bakanauskas is a PhD student in Kaunas University of Technology. He received his MSc. from Kaunas University of Technology. He works as a junior researcher at the Space Science and Technology Institute in Vilnius. Currently, his main research interest is in the development of piezoelectric devices for attitude control of small satellites. His work was presented in "Vibroengineering 2012" conference.
