

Prof. Valdas Laurinavičius

*Director, Institute of Biochemistry, Vilnius University  
Lithuania*

Laurinavičius Valdas. Master of Science in organic chemistry from Chemistry faculty of Vilnius University, 1972. Candidate of Biological Sci. (Ph.D) in biochemistry, 1979. Doctor of Technical Sci. (Habilit. Dr.) in biophysics, 1991. Professor in biochemistry, 1996. Career in the Institute of Biochemistry: Post graduate student 1974-1977. Researcher 1977-1989. Head of the department of Bioanalysis 1989-to date. Director of the Institute 2004 to date. National Science Awards 1998 and 2009. Member of Lithuanian Academy of Science. Main field of interests – biochemistry, bioengineering, biosensors, analytical chemistry and analytical biochemistry, bioelectrochemistry. Mathematical modelling of the heterogeneous bioelectrochemical systems.
